

# Safety Data Sheet

## 1. Identification

Product: Bud Rub - Lavender Formula

Manufacturer: Farend Natural Products Ltd.

PO Box 120  
Alert Bay, BC  
V0N 1A0  
Canada

Emergency Contact: David Faren +1.2509744188

Description: BC Bud Rub is an ointment with a hemp seed oil, almond oil, and beeswax base.

Recommended Use: Used topically to treat mild to moderate pain and inflammation.

Restrictions on use: Not recommended for people with allergies to bees or nuts.

## 2. Composition/Information on Ingredients

Substances:

- The material does not meet the criteria of a substance.

Mixtures:

- hemp seed oil >50%
- almond oil <30%
- beeswax <10%
- essential oils ~3%
- tocopherol blend ~1%

exact concentrations are withheld as a trade secret.

## 3. Hazard Identification

UN GHS Classification: Classification criteria not met

Precautionary Statements: Storage/Disposal

- Keep tightly closed.
- Store at room temperature 15-25°C (59-77°F), to maintain product integrity.
- Use before expiry date marked on carton and/or container.

## 4. First-Aid Measures

- **Inhalation** no first-aid measures required, the product is not likely to be hazardous on inhalation. In the case of excess inhalation of the product, seek fresh air.
- **Skin** no first-aid measures are required, the product is not likely to be hazardous to the skin or mucous membranes. Those with severe allergies to bees or bee pollen are advised to seek medical attention immediately. Those with severe nut allergies may need to seek medical attention.
- **Eyes** If irritation occurs on contact with eyes, flush with water. If irritation persists, seek medical attention.
- **Ingestion** no first-aid measures are required, the product is not likely to be hazardous on ingestion. Those with severe allergies to bees or bee pollen are advised to seek medical attention immediately. Those with severe nut allergies may need to seek medical attention.

## 5. Fire-Fighting Measures

Suitable extinguishing media: NaOH, CO<sub>2</sub>,  
 Unsuitable extinguishing media: Water spray

Specific hazards arising from the substance or mixture:

Unusual fire and explosion hazards: none known.

Hazardous combustion products: none known.

## 6. Accidental Release Measures

- Personal precautions: no special protection or personal precautions are needed when used as intended. In the case of a large scale spill, protective gloves are recommended.
- Emergency procedures: no emergency procedures are needed when used as directed. In the case of large scale spills on floors, hazard indicators are recommended during clean-up.
- Environmental precautions: no precautions are required.
- Methods and material needed for clean up: dry cloth or paper towel are generally sufficient.

## 7. Handling and Storage

Handling: no special handling procedures are required.

Storage: Keep tightly closed. Store at room temperature 15-25°C (59-77°F), to maintain product integrity. Use before expiry date marked on carton and/or container.

## 8. Exposure Controls and Personal Protection

No special controls or protection are needed when used according to the product directions.

## 9. Physical and Chemical Properties

### Material Description:

Physical form: viscous liquid  
Colour: green  
Odour: pine and earthy  
Odour Threshold: not available

### General Properties:

Boiling point: not available  
Melting point: not available  
Decomposition temperature: not available  
pH: 6-7  
Specific gravity: not available  
Water solubility: not available  
Viscosity: not available

### Volatility:

Vapour pressure: not relevant  
Evaporation rate: not relevant

### Flammability:

Flashpoint: 165C  
UEL: not relevant  
LEL: not relevant  
Autoignition: not relevant  
Flammability: will burn in a fire, but not considered a fire risk.

## **10. Stability and Reactivity**

Chemical reactivity: Stable  
Conditions to avoid: avoid excess heat and exposure to flame.  
Incompatible materials: strong acids, alkali, and oxidizing agents.  
Hazardous Decomposition: CO<sub>2</sub> and CO may form when heated to decomposition.  
Hazardous polymerization: will not occur.

## **11. Toxicological Information**

Toxicology Information: not available  
Inhalation: not likely to cause adverse reactions on inhalation.

Ingestion: ingestion in extremely large quantities could cause nausea and some adverse reactions.

Skin: no adverse reactions are likely.

Eyes: flush with sterile saline solution for 1-2 hours

Chronic Effects: none known

## **12. Ecological Information**

Ecotoxicity: none known

Persistence/Degradability: readily biodegradable

Environmental Protection: not available

## **13. Disposal Considerations**

Any waste product should be disposed of as compost.

## **14. Transport Information**

This product is not a dangerous good and does not have a TDG PIN.

## **15. Regulatory Information**

The product is not classified as a hazardous substance or poison.

## **16. Other Information**

This document was revised by David Faren for Farend Natural Products Ltd., March 27, 2019.
